Comparison to conventional p value method, $N = 100$

p (Cox only) = 0.00689
p (logrank) = 0.00198

Survival Probability
Time

High (n=56)
68% CL (Binomial only)
95% CL (Binomial only)
Low (n=44)
68% CL (Binomial only)
95% CL (Binomial only)
